Receive a FREE pack of Four Port GLS 80 caps

KIMBLE® GLS 80® Wide Mouth Media Bottles w/ Blue PP Cap

KIMBLE® GLS 80® wide mouth media bottles are extremely versatile: ideal for pouring, filling, mixing, preparing, storing, transporting, dispatching, taking samples in the field and hot filling, whether in the laboratory or in production. The wide mouth design facilitates easy and safe charging and removal of powders, pastes, granules and liquids. Spoons, spatulas and tweezers can be manipulated with ease. Even large-volume funnels can be inserted into the bottles without any difficulty. The wide neck also makes cleaning the bottles particularly easy.

Durable, fired on ceramic ink graduations and marking patch withstand the rigors of daily laboratory, bioprocess and production use. KIMAX® 33 expansion borosilicate glass is low extractable, USP Type I, your assurance of purity, with a full temperature and chemical resistance range. Complete with blue quick-release linerless polypropylene closure and pour ring that are rated up to 140°C. The exterior tint on amber bottles provides UV light protection in the 300 nm – 500 nm wavelength range. Autoclavable KimCote® coating provides safety and reduces hazards of scratching, leaking and shattering.

GLS 80® Four Port Screw Cap*

The multi-port system consists of a GLS 80 screw cap with four ports. The tubes* are fed through these ports and secured with inserts* and screw connections*. There is a choice of 5 inserts, each with different internal diameter depending on the application. Unused ports can be fitted with a blanking cap, if necessary. Sterile pressure compensation can be achieved using the membrane filter set (0.2 µm pore size).
