Liquid Handling Starter Packs. Save 27%.

Promotional offers

- > Save up to 27%¹ on this specially designed pipetting package including 4 single-channel pipettes (Research plus or Reference[®] 2), a Repeater[®] M4, and Easypet[®] 3
- > Repeater M4 (a \$620 value), Easypet 3 (a \$502 value), Pipette Carousel 2 (a \$161 value), and Repeater M4 holder (a \$55 value) are included in the delivery package together with the 4-pack of single-channel pipettes

The Liquid Handling Starter packages were designed to give you the ability to accurately pipette any volume from 0.5 µL to 50 mL between any type of vessel (tubes, plates, bottles, etc.)

The package includes 4 air cushion pipettes for accurately pipetting volume ranges from 0.5 µL to 1 mL. Also included is the Easypet 3 to simplify applications requiring large pipetting volumes from 1 to 50 mL. The included Repeater M4 speeds up dispensing series with up to 100 dispenses from a single aspiration.

Eppendorf Xplorer® Electronic Pipettes. Save up to 30%.

Promotional offers

- > Save 27% on Xplorer single-channel electronic pipettes
- > Save 30% on Xplorer multichannel electronic pipettes

The highly precise motor control of the Xplorer pipettes provide the utmost in accuracy and reproducibility, helping improve the consistency of results for experiments like PCR, qPCR, and NextGen sequencing. The at-a-glance parameter screen, selection dial, and “up is up, down is down” control button make programming and operating electronic pipettes simple, intuitive, and less prone to errors.

Centrifuge 5910 R Cell Culture Bundle. Save 20%.

Bundle savings

- > Special bundle savings on the purchase of a 5910 R cell culture package (a \$2,451 value)
- > Set of 4 aerosol-tight caps included (a \$720 value)
- > Purchase a 5910 R cell culture package and get 40% off a second rotor (up to a \$2,158 value)

With its great versatility, the refrigerated Centrifuge 5910 R is setting the next benchmark for benchtop centrifuges. Featuring a powerful, state-of-the-art refrigeration system to keep your samples safe, a modern operating system for ease-of-use, and very low noise levels for a quiet work environment, the Centrifuge 5910 R has the versatility to fit the needs of most research labs. Further, with a comprehensive portfolio of fixed-angle and swing-bucket rotors, this centrifuge was designed to accommodate a particularly broad spectrum of applications. Cell harvests in bottles of capacities up to 1000 mL, large-scale DNA and RNA isolations as well as Ficoll® gradients for the purification of lymphocytes and monocytes are merely a few examples of the many areas of application.

Centrifuge 5910 R Cell Culture bundle ¹ (S-4xUniversal with aerosol-tight caps), 120 V	38-2231000657	\$14,995	20%

¹ Cell Culture package includes a centrifuge and swing-bucket rotor plus the following adapters (sets of 2) for 15 mL and 50 mL conical tubes: 5910 R with S-4xUniversal rotor = 2 x 5910752008, 2 x 5910769008.

Centrifuge 5920 R Cell Culture Bundle. Save 23%.

Bundle savings

- > Special bundle savings on the purchase of a 5920 R cell culture package
- > Set of 4 aerosol-tight caps included (a \$720 value)
- > Purchase this package and receive 40% off a second rotor (up to \$2,158 value)

Centrifuge 5920 R delivers extraordinarily high capacity and performance in a compact and ergonomic product design. Accommodating up to 4 × 1,000 mL bottles or 52 × 50 mL tubes, it is the ideal instrument for high-throughput applications. The state-of-the-art refrigeration system delivers precise cooling performance, which protects samples from unwanted temperature fluctuations and provides temperature you can rely on.

Centrifuge 5424 R Offer. Save over 30%.

Promotional offer

- > Purchase a Centrifuge 5424 R for a special price of just \$5,195, a savings of 32% off the regular list price

The refrigerated Centrifuge 5424 R is the laboratory standard when it comes to efficient cooling performance (e.g. quick cooling down from room temperature to set temperature) in a very ergonomic product design. It features state-of-the-art cooling technology to ensure high temperature accuracy for maximized sample protection and best separation results. Ideal for everyday laboratory use.

Eppendorf ThermoMixer® C Offer. Save 18%.

Promotional offer

> Save 18% on the purchase of a ThermoMixer C with 1.5 mL SmartBlock™ and ThermoTop®

The Eppendorf ThermoMixer C offers high-quality, mixing and temperature control instruments. Unique 2^DMix-Control technology means fast and efficient mixing in tubes and plates, Eppendorf ThermoTop prevents condensation for improved assay performance, and QuickRelease technology enables quick exchange of Eppendorf SmartBlocks.

The new Eppendorf SmartExtender is a flexible new incubation tool which can easily be used as an add-on to your existing SmartBlocks and the Eppendorf ThermoMixer C/Fx, as well as ThermoStat™ C. Temperature control is independent from the SmartBlock for additional applications. All SmartBlock sizes are usable in parallel to the SmartExtender with full functionality (heating, cooling, mixing) for high flexibility.

Includes SmartBlock 1.5 mL and ThermoTop

Mastercycler X50a Offer. Save 31%.

Promotional offer

- > Save over 31% on the purchase of a Mastercycler X50a aluminum block 96-well thermal cycler

The Mastercycler X50 offers excellent block temperature control, and extremely fast temperature ramp rates allow you to save time with optimized protocols. The 2D-Gradient option results in 96 different reaction parameters to optimize two steps of the PCR protocol in a single run and supports a fast optimization of your PCR protocols.

The Mastercycler X50 family consist of units with a user-friendly VisioNize® touchscreen interface or eco units which are externally controlled. Each cycler with a touchscreen can be networked with 9 additional eco units. If that is not enough throughput, you can network up to 50 Mastercycler eco units to a computer or laptop running CycleManager X50 as a central controller. Whichever you choose, you can independently control and monitor every unit. You can also manage who has access to the system and designate a level of access with our intuitive user interface. Low noise levels, low power consumption, and the versatile flexlid® concept complete the product to be a powerful and convenient PCR cycler.

Mastercycler nexus gradient Offer. Save 39%.

Promotional offer

- > Save over 39% on the purchase of a Mastercycler nexus gradient aluminum block 96-well thermal cycler

The Mastercycler nexus gradient is your reliable companion when a maximum of flexibility in formats is needed. It can accommodate 96-well PCR plates including fully-skirted plates, 0.2 mL and 0.1 mL PCR tubes and strips, 0.5 mL PCR tubes, domed caps, flat caps, films, and foils.

The gradient option of the Mastercycler nexus gradient features our SteadySlope® technology to ensure that the heating and cooling ramp rates are identical in both gradient and normal operation. Thus, you can expect identical temperature control characteristics in both optimization and routine experiments.

Innova® S44i Offer. Save up to 32%.

Promotional offers

- > Save 32% on the purchase of an incubated Innova S44i with universal platform
- > Save 29% on the purchase of a refrigerated Innova S44i with universal platform

The Innova S44i is a large capacity, temperature controlled (refrigerated) stackable shaker allowing the use of high-volume flasks in large numbers in a compact footprint. The iconic slide up door provides easy access to your samples. The Eppendorf X-Drive allows for shaking high loads at high speeds—even when stacked. When there is an instance of an unbalanced load, the X-Drive's counterbalance adjustment allows for smooth shaking. The optional photosynthetic LED lightbank provides the ability to evenly light the entire platform across a wide intensity range—and it's programmable. The VisioNize® touch interface introduces onboard monitoring, user management and the ability to export data via USB; or network integration via ethernet. A comprehensive service offering including IQ/OQ is also available.

Includes a universal platform—up to a \$1,110 value!
