

Save on sustainable cold storage solutions

Discover special pricing for robust and reliable Revco RDE Series Ultra-Low Temperature Freezers*

Thermo Scientific™ Revco™ RDE Series Ultra-Low Temperature Freezers are designed with performance and energy savings in mind. For a limited time, you can get special pricing on selected upright models and shipping within 5 days of your order.**

All units utilize hydrocarbon refrigerants to help protect the environment and use less energy. The refrigeration system is designed to provide outstanding uniformity and quick recovery after door opening, while offering a touchscreen interface that is simple to use and provides all required functionality.

Sustainability doesn't mean sacrifice—our cold storage solutions offer:

- Hydrocarbon refrigerants that reduce CO₂ emissions by more than 30%, complying with the US Environmental Protection Agency (EPA) Significant New Alternatives Policy (SNAP) program
- Decreased energy usage and cost by more than 50%†
- My Green Lab® ACT® Environmental Impact Factor Labels on all units, emphasizing instrument sustainability
- Fast recovery after door openings
- Tight temperature variation with low peak variation
- The Revco RDE series utilizes a five inner door configuration
- Five-year parts and labor warranty

† Data are in comparison to an average 10-year time span, as well as in comparison to a unit using ozone-depleting refrigerants.
